Company Overview

A reliable landscaping partner focused on presentation, communication and proactive site care.

Mac Brothers Landscaping delivers premium landscape maintenance services across New Zealand for developers, property managers, body corporates and commercial clients. Our objective is to protect landscape investment through proactive maintenance, professional communication and exceptional presentation.

Our work spans commercial landscape maintenance, landscape construction and high-end residential projects. Our maintenance philosophy is centred on proactive inspections, quality workmanship and reliable service delivery.

CORE CAPABILITIES

Commercial Landscape Maintenance Planned garden care, edging, pruning, weed control, presentation checks and site upkeep.	Landscape Construction Landscape construction capability for commercial and residential environments.
Plant Health & Weed Management Monitoring for pests, disease and irrigation issues, with integrated manual and targeted chemical weed control.	Reporting & Improvement Photo reporting, recommendations and a continuous-improvement approach to landscape performance.

TRUSTED BY

Mac Brothers Landscaping has successfully delivered projects for a range of residential, commercial and property-sector organisations across New Zealand, including:

Ockham Residential	Fletcher Living	Titus Group	Wolfbrook Residential
Brooksfield Homes	Citrus Living	Crockers Property Management	Active Building Management
RRR	Jazmax	Mitre 10	ANZ
Cribtex	BCA	Care Body Corporate	Alvarium

Service Delivery

A practical, repeatable maintenance approach built around quality control and clear reporting.

OUR MAINTENANCE PHILOSOPHY

Inspect	Maintain	Quality Check	Report	Recommend	Improve
---------	----------	---------------	--------	-----------	---------

LANDSCAPE MAINTENANCE CAPABILITIES

Routine Maintenance Scheduled garden maintenance including edging, pruning, weed control, litter removal, green waste removal and presentation checks.

Weed Management Integrated manual and targeted chemical control using compliant application methods.

Plant Health Monitoring for pests, disease, irrigation issues and vandalism, supported by photo reporting.

Green Waste Green waste removed after visits so sites are left clean and presentable.

Reporting Reporting can include completed works, photographs and recommendations where required.

HOW WE SUPPORT CLIENTS

Proactive	Visible	Responsive
Issues are identified early and recommendations are made before presentation or plant health deteriorates.	Before-and-after photography can be provided for significant works, giving clients a clear record of outcomes.	Urgent maintenance issues can be responded to within 24 hours as part of the service model set out in our current maintenance offering.

Representative Project Portfolio

Examples of landscape environments delivered and maintained by Mac Brothers Landscaping.

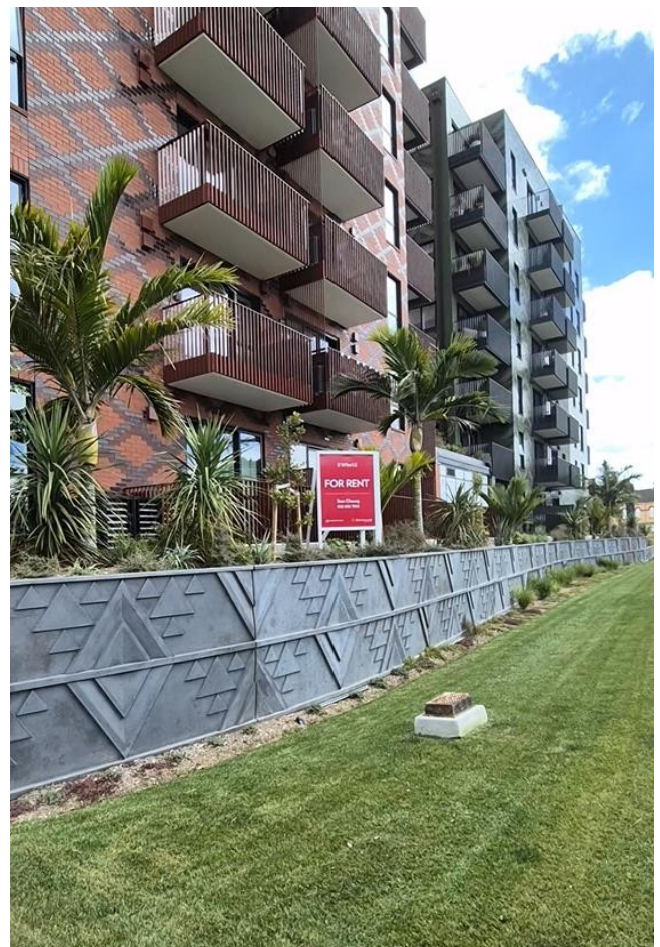

Multi-unit residential landscape

Commercial / communal landscape

Apartment landscape maintenance

Multi-storey residential landscape

Health, Safety & Service Commitments

Operational controls and client-service practices that support consistent landscape outcomes.

HEALTH & SAFETY

Mac Brothers Landscaping maintains Health & Safety systems including site-specific hazard assessments, public interface management, safe chemical handling, PPE compliance, toolbox meetings, environmental controls and public liability insurance.
